# New Videos!

New videos about vaccine side effects, contraception, recovery from addiction, Act 264, and Winooski construction.

Dear friends and colleagues,

We hope you're all doing as well as possible, given the turbulent times. We know federal funding cuts, including last's week's CDC health equity funding cut, are affecting many of us. Our team is continuing to pursue new funding sources and stretching each dollar we have, so we can meet urgent needs of our communities.

We were able to make a video about contraception thanks to generous individual donors. We're currently seeking additional funds to make a video that gives details about a range of contraceptive methods. If you'd like to help us make videos like this that meet community needs, please [donate](#) here.

Many thanks to our partners who worked with us and supported the production of our latest videos: Recovery Partners of Vermont and the VT Departments of Health, Mental Health, and Labor.

Please share our videos with your clients and communities so they have the information they need to make informed choices.

We're also happy to share that the mobile app we've been developing is inches away from being launched! We'll keep you posted.

be well,

[Alison](#) & [Olivia](#) & [Dani](#)
